LAND ACKNOWLEDGEMENT

NP ROLE

Nurse practitioners (NPs) are registered nurses who have additional education and nursing experience at the Master's level of higher, which enables them to:

- Autonomously diagnose, treat and prevent illness(es)
- Order diagnostic tests and interpret results
- Prescribe medications and perform procedures within their legislated scope of practice
- Perform medical procedures
- Participate in research, health promotion and continuous quality improvement

- NPs are a separately regulated class of nurses
